JUSTICE?

WHAT IS  
JUSTICE?

# Justice means . . .

**A SOCIETY** where every citizen is safe in their person and their home, and their day-to-day lives.

**A SOCIETY** where every citizen is treated with dignity, regardless of race, creed, or personal difference of any kind.

**A SOCIETY** where every citizen is treated equally before the law, and by the law.

**A SOCIETY** where racism is wrong, where discrimination is wrong, where the government intervenes when racism or discrimination threatens a person's basic rights.

**THIS IS WHAT WE BELIEVE.**
